# Purpose

Bowls SA strives to ensure that its members participate in the game of bowls in the safest and most enjoyable environment possible. While the impact and risk can vary, depending on location, surface played on, other weather elements and the intensity of the activity, in South Australia extreme weather such as cold, lightning, extreme heat and catastrophic fire danger is a risk for our sport.

The principles of this policy are to ensure that:

- Those controlling a competition or activity understand their duty of care and are empowered to make decision relating to this responsibility
- We don't want to act too early such that activities are cancelled unnecessarily, but equally we need to act where appropriate
- Where possible, we will first seek to modify the activity in preference to cancelling
- Participant - players, officials' volunteers or spectator, remain the paramount consideration
- Every individual has a personal responsibility to ensure that they apply sound self-management practices to minimise any likely effects of weather on their health and well-being.

# Scope

Staff	Board Members	Delegated Authorised Person(s)	Bowls SA managed activities	High performance programs	Association managed activities	Club managed activities	Players & Club Members
✓	✓	✓	✓	✓	✗	✗	✓

Where the Bowls SA or Competition Manager representing Bowls SA, is hosting a Bowls SA managed event in conjunction with another party, the Competition Manager will coordinate with the other party's competition manager/organisers as to what their extreme weather policy is to make a joint decision regarding what to do in extreme weather events.

# Definitions

Term	Definition
Participant	Player, athlete, member, volunteer, spectator
Controlling Body	Organisation responsible for the delivery of activity. This includes Bowls SA, Associations and Clubs
Activity	Event, competition, tournament, training or other activity
Inclement weather	Maybe one or more of the following:
	<ul style="list-style-type: none"> <li>• Lightning (i.e. storm)</li> <li>• Heavy rain, hail or snow</li> <li>• High winds</li> <li>• Extreme heat</li> <li>• Extreme cold</li> <li>• Heavy fog or frost</li> <li>• Flooding, etc.</li> <li>• </li> </ul>
Trigger Point	A point defined by this policy, where the weather conditions require the Controlling Body/Competition Manager to assess the situation and make a duty of care decision regarding the state of play

# Responsibilities

The following outlines the roles and responsibility for all covered by this policy:

Who	Responsibility
Bowls SA	<ul style="list-style-type: none"> <li>• Manager of all Bowls SA events, competitions, tournaments or programs or activities</li> <li>• Must consult with Match Officials/Umpire/Competition Manager and Ground staff/Green Keeper</li> </ul>
Competition Manager	<ul style="list-style-type: none"> <li>• Bowls SA staff or in some cases, a delegated authorised person</li> <li>• On site manager of the activity/competition on behalf of the Bowls SA and therefore has the authority to make decisions regarding risk and status of play</li> <li>• To communicate and work with Match Official/Umpire, Green Keeper, participants regarding risk and the status of play</li> <li>• Encouraged participants apply sound self-management practices</li> <li>• Ensure drinks should be available at every venue where play/competition takes place.</li> <li>• Tap water should be available free of charge and in unlimited quantities.</li> </ul>
Match Official / Umpire	<ul style="list-style-type: none"> <li>• Manages the game</li> <li>• To communicate and work with the competition manager in case they believe conditions are unsafe</li> </ul>
Green Keeper	<ul style="list-style-type: none"> <li>• Manages the status of the greens</li> <li>• Has the authority to close greens based on the risk to participants or the greens themselves</li> <li>• To communicate and work with Controlling Body, Competition Manager and Match Official/Umpire regarding risk and the status of play</li> </ul>
Participant	<ul style="list-style-type: none"> <li>• To be aware of the policy and the potential outcomes of a weather impacted event may have on their involvement</li> </ul>

	<ul style="list-style-type: none"> <li>• Take into account their own health considerations before and during a game of Bowls.</li> <li>• Have a personal responsibility to ensure that they apply sound self-management practices to minimise any likely effects of heat on their health and well-being.</li> <li>• If they consider the weather is unsafe for them to play, they need to let their event manager and club know of their unavailability asap</li> </ul>
--	---

## Policy

### Monitoring Conditions & Trigger Points

Bowls SA recognises that there can be a fine line when it comes to decision making regarding the cancelling/modifying an activity because of the impact of weather. Some decisions are easy to make, others can be more challenging and all decisions can have various levels of impact on different stakeholders. It is important to find the right balance. Some decisions can't be helped but being made at the last minute.

The following planning guide has been developed to assist Bowls SA, those planning and those participating in all Bowls SA managed events and activities be aware of key decision trigger points

Timing	Activities
<b>Pre event</b>	Where possible back up venue sought Risk management and Modification plans developed, in place and communicated Event registration Terms and Conditions to include and highlight: <ul style="list-style-type: none"> <li>- Weather policy</li> <li>- Refund policy</li> <li>- Modifications statement</li> <li>- Participants responsibility and risk of participation</li> </ul>
<b>7 days out from start time</b>	Monitoring of conditions Pre active communication to venues and participants
<b>2 days</b>	If it looks like weather could impact the running of the activity: Communication to participants noting: <ul style="list-style-type: none"> <li>- The possibility of modification and or cancellation</li> <li>- What options the participant has</li> <li>- Outline of plans of what will occur between now and the planned activity</li> </ul> Competition manager to work with and communicate with the venue and other stakeholders
<b>24 hour prior to activity</b>	Where weather conditions are likely to impact an activity: <ul style="list-style-type: none"> <li>- Communicate to participants and other stakeholders them aware of any expected impacts and modifications being implemented for the following days activity.</li> </ul>
<b>Morning of activity</b>	<b>2 hours before the start of the first activity:</b> The temperature and conditions will be assessed by the Competition Manager and an announcement to all players and officials will be made, making them aware of any expected impacts and modifications being implemented.

	<p><b>Conditions deemed SUITABLE:</b> Where the conditions allow for the activity to take place, before the start of play each day Competition Manager will:</p> <ul style="list-style-type: none"> <li>• Communicate this to all stakeholders but make them aware that this could change if and when conditions change</li> </ul> <p><b>Conditions deemed NOT SUITABLE resulting in the delayed or modification:</b> If at the start of the day, the Competition Manager deems the conditions (as indicated using one of the methods listed in this policy) has reached a trigger point requiring action for that location:</p> <ul style="list-style-type: none"> <li>• The start of play will be delayed by the Controlling Body</li> <li>• Start of play can be delayed for up to a period of 2 hours, before a decision regarding modification, reschedule or cancelling of the activity must be made.</li> <li>• The controlling body has up to 1.5 hours to make this decision.</li> </ul>
<p><b>During activity</b></p>	<p><b>Conditions deemed NOT SUITABLE during play:</b> If during the day of play, the Competition Manager deems the temperature/conditions (as indicated using one of the methods listed in this policy) has reached a trigger point requiring action for that location:</p> <ul style="list-style-type: none"> <li>• If safe to do so, all participants will complete the end they are currently playing and move from the green. <ul style="list-style-type: none"> <li>○ If the end is declared dead, the end will be replayed when the game is restarted</li> </ul> </li> <li>• Play can be delayed for up to a period of 2 hours, before a decision regarding modification, reschedule or cancelling of the activity must be made. <ul style="list-style-type: none"> <li>○ The controlling body has up to 1.5 hours to make this decision.</li> </ul> </li> <li>• <b>Improvement of conditions:</b> <ul style="list-style-type: none"> <li>○ When the Competition Manager determines the conditions has improved (based on the recommendations outlined in this policy), play should resume.</li> </ul> </li> <li>• <b>Deterioration or no improvement in conditions:</b> <ul style="list-style-type: none"> <li>○ Depending on the impacting conditions, within 1 hour of the activity being suspended, if the Competition Manager determines the condition has or is not likely NOT to improve (as determined by this policy) within the next 2hours, abandon play.</li> </ul> </li> </ul>

# Environmental Factors

## Hot Weather

- Each Bowls SA and Competition Manager will have a local approach to measuring temperature by referring to the Bureau of Meteorology (BOM) temperature for the area **utilising a reading from the local weather station, as noted in the appendix 1)**
- If a change is made to an activity either in day or time, or if it is abandoned, Bowls SA or Competition manager (in conjunction with Bowls SA) will make all efforts to communicate changes to all stakeholders via Phone (call or SMS), E-mail and where possible on the suitable social media channels.

### Trigger points for Hot Weather

Temperature	Action and Outcome
<b>38c or above</b>	If the temperature is predicted to be over 38c or above on the day of competition, and other weather conditions such as humidity, wind are also impacting the temperature, all scheduled matches are to either: a) Abandon their game b) Mutually agree to play their match at an alternative time or day (provided it does not exceed 38c degrees) in line with the competition
<b>Between 34c and 37c</b>	If the temperature is between 34c and 37c, and other weather conditions are impacting the temperature, mitigation can be considered implemented.
<b>Below 34c</b>	If temperature is below 34c and other weather conditions are not impacting the conditions, the game will be played at the normally schedule time and format.

## Heatwaves

Bowls SA and Competition Managers are to watch for unusual “heatwave” conditions or variations from the average temperature for the time of year and location. Bowls SA and Competition Managers are to use the above ‘Trigger points for hot weather’ and ‘Monitoring conditions plan’ to support the decision-making process during heatwaves.

## Bushfire Dangers

In the case of Bushfire warnings, the following guide will be used to determine if bowls activities will take place in a local area.

All should be aware:

- [Australian Fire Danger Ratings](#) are routinely issued by 5pm daily during the fire season. These ratings are determined in conjunction with Bureau of Meteorology (BOM).
- Fire Danger Ratings and Total Fire Ban information for days 2, 3 and 4 are preliminary forecasts and should be used as a guide only. These ratings may change based on both weather and non-weather-related factors. Total Fire Bans are officially declared after 4pm the day prior.
- BOM ([bom.gov.au/sa/forecasts/fire-danger-ratings.shtml](http://bom.gov.au/sa/forecasts/fire-danger-ratings.shtml)) and the CFS ([cfs.sa.gov.au/bans-and-ratings/](http://cfs.sa.gov.au/bans-and-ratings/)) are the best sources for up-to-date information

**When the Bureau of Meteorology or Country Fire Service, declare a day of **Catastrophic Fire Danger** in the area or surrounding areas, all bowls will be cancelled in the area affected.**

## Fire Danger Rating Days

The following matrix will be used to by Bowls SA and Competition Manages to make decisions with regard to fires:

Current	Actions
Catastrophic	All bowls activities cancelled in affected areas
Extreme	Cancellation of bowls activities will be considered in affected areas.
High	Bowls activities in affected areas can continue only if: <ul style="list-style-type: none"><li>• The venue has a current fire action plan in place</li><li>• Conditions are monitored thought out the day</li></ul>
Low-Moderate	Bowls activities can carry on as planned

### *Fire declared*

If a fire is declared in the local area, all bowls activities are to be cancelled and members should refer to the CFS website or AlerSA app regarding the bushfire warning status (Advice, Watch and Act, Emergency Warning)

## Cold Weather

Games would not normally be varied for cold weather, unless one of the following is also a factor.

- Hail or snow
- Thunderstorm
- Extreme wind
- Heavy rain - flooding
- Extreme cold weather

The impact on games of adverse weather shall be dealt with in accordance with conditions of play and the laws of the sport.

## Rain

- Before the start of the event, the Bowls SA and the Competition Manager will monitor the expected conditions for the duration of the event.
- If it begins to rain, play will continue until the Competition Manager in conjunction with the Match Official/Umpire and Green Keeper or their representative deems it unsafe for participants or the greens to do so.
- When the Competition Manager deems it safe to return to the green, play should resume as in accordance with conditions of play and the laws of the sport.

## Hail

- All hailstorms present some risk to participants in an open playing field, and the size and intensity of the storm can change dramatically in a short period of time. All play should be suspended during hailstorms so that participants can seek suitable shelter.
- Play should be restarted after the hail has stopped falling, with particular attention being given to the amount of ice on the playing surface (size and thickness of layer).
  - In some cases, it may be unsafe to resume the activity immediately due to an ice covered surface. Deferral of the restart to allow melting (or manual clearing in parts) should be considered in extreme circumstances.

## Lightning

- Lightning can strike without other typical storm characteristics (i.e. thunder, rain and wind) being present.
- If lightning is present, play should be immediately suspended. Players should move inside a sturdy building and stay inside until 30 minutes after the last sighting of lightning.
- Artificial Devices such as Bowlers Arms and Bowls Lifters should not be handled while lightning is present.
- When the Competition Manager deems it is safe to return to the green, play should resume as per in accordance with conditions of play and the laws of the sport.

### *Lightning safety tips:*

- **Use the 30/30 Lightning Rule.**  
If the time between the lightning flash and the thunder sound is less than 30 seconds then play should be suspended, and not resumed until 30 minutes after the last thunder. 30 seconds means that the lightning is approximately 10 kilometres away.
- **Find safe shelter.**  
Sturdy buildings are the safest place to be during lightning storms. Avoid sheds, picnic shelters, metal coaching boxes and goals. Staying in a car with windows closed also offers some protection.

## Wind and Air Quality

Games would not normally be varied for wind, unless one of the following is also a factor:

- Extreme chill
- Extreme heat
- Extreme wind
- Poor air quality

If the EPA Air Quality Forecast for the local area falls between any of the following readings, the following actions should take place:

EPA Air Quality	Timing	Outcome
<b>Extremely poor</b>	2 hours before the game	<ul style="list-style-type: none"><li>• Games will be abandoned.</li><li>• This would be communicated by the Controlling Body/Competition Manager to all relevant participants and stakeholders</li></ul>
<b>Poor or Very Poor</b>	2 hours before the game	<ul style="list-style-type: none"><li>• Controlling Bodies/Competition Managers to manage the activity within line with rules of plan and allowed modifications</li><li>• Conditions will be monitor throughout the day.</li></ul>

Air Quality Rating information can be accessed form here:

[epa.sa.gov.au/environmental\\_info/air\\_quality/new-air-quality-monitoring](http://epa.sa.gov.au/environmental_info/air_quality/new-air-quality-monitoring)

## Modifying Considerations

In the event of extreme weather, Bowls SA and the Competition Manager, in conjunction with the Match Official/Umpire, has the right to alter the Conditions of Play for to ensure that play continues whilst maintaining:

- a duty of care to all participants involved in the activity

- a duty of care to the greens
- the integrity of the competition

The following modifications can be made to an activity to allow continuation of play:

- Delayed start/early finish
- Reschedule to another day/time
- Reductions of ends
- Additional breaks
- Additional environmental - Additional shade, fans etc

## Outcomes of modified or Abandoned games

In line with the rules of the sport and the activities conditions of play, the following should be used as a guide to manage results and outcomes:

Controlling Body	Activity	Recommend Outcome
Bowls SA	Pathway event eg State event	Event to be reschedule to allow for results
	Non pathway event	Best placed

## Withdrawal

Any participant who considers that the effects of the forecast weather condition for the day of an activity will have an adverse effect on their health, safety and well-being, can withdraw from the competition or event without penalty, if the Competition Manage has been advised by 5pm the day before the competition.

Such withdrawal may also occur during the course of play where the temperature on the green is at a level that the player considers places them at risk. Such actions would be managed as a forfeit in line with the conditions of play.

Participants who chose not to participate in an event due to Extreme or Catastrophic Fire Danager, will not be financially penalised for the non attendance.

The team that is impacted by the withdrawal will have the following options:

1. To utilise a substitute as per conditions of play
2. Withdraw their team from the competition.  
*If this occurs, the team will not be penalised a Withdrawal and non attendance fee', as noted in Bowls SA Fines, Penalties & Lodgement Fees Schedule and Conditions of Play.*

Should a team withdraw from the competition, the results will be recorded as a bye as per Conditions of play.

## Monitoring, Breaches and Misuse

It is the Board responsibility to ensure that the CEO, with the support of Senior Management, has systems in place and that those covered by this policy, are adhering to it.

# References, Legislation & Industrial Instruments

This policy & procedure is not intended to override any industrial instrument, contract, award, or legislation.

- Bowls SA Fines, Penalties & Lodgement Fees Schedule

## Policy Reviews and Updates

This policy will be updated as needed if there are any changes in the business or regulatory environment.

It is scheduled for a comprehensive review outlined in the 003, Control Document Register. The CEO will initiate this review and conduct with the support of the Governance Committee.
